These drawings have been produced with reference to the CDM Regulations 2015. Please note that these are pre-construction phase drawings and should be subject to further design risk management as required in accordance with Regulation 9.

Notes

1. All dimensions shown on the drawings are on a true metric scale of 1:100 unless otherwise stated.

2. For site location, refer to Transport Initiatives LLP Illustration “Parking Plan Locations”.

3. The proposed Cycle Parking locations have been established in accordance with Transport Initiatives LLP proposals.

4. Design is based on OS Ordnance Survey number: 0100031673.

5. The proposed Cycle Parking has been developed in accordance with Transport Initiatives LLP proposals.

6. Sheffield Cycle Stands to be in accordance with Broxap Sheffield stands or similar. Refer to the manufacturer for the relevant details.

7. Cobra Bike Rack units to be in accordance with Turvec Bike Rack specifications or similar. Refer to manufacturer for the relevant details.

8. Due to the lack of a topographical survey, features such as footways, unpaved areas and kerblines within Downing Site missing from the base OS have been replicated from Site Visit Images provided by Transport Initiatives LLP.

9. For Cargo/Adapted Cycle space construction details please refer to Transport Initiatives LLP Documentation.

10. The proposed Cycle Parking has been established in accordance with Transport Initiatives LLP proposals.

11. Design is based on OS Ordnance Survey number: 0100031673.

12. Sheffield Cycle Stands to be in accordance with Broxap Sheffield stands or similar. Refer to manufacturer for the relevant details.

13. For Cargo/Adapted Cycle space construction details please refer to Transport Initiatives LLP Documentation.

14. Due to the lack of a topographical survey, features such as footways, unpaved areas and kerblines within Downing Site missing from the base OS have been replicated from Site Visit Images provided by Transport Initiatives LLP.

15. Sheffield Cycle Stands to be in accordance with Broxap Sheffield stands or similar. Refer to the manufacturer for the relevant details.

16. For Cargo/Adapted Cycle space construction details please refer to Transport Initiatives LLP Documentation.

17. The proposed Cycle Parking has been established in accordance with Transport Initiatives LLP proposals.

18. Sheffield Cycle Stands to be in accordance with Broxap Sheffield stands or similar. Refer to the manufacturer for the relevant details.

19. For Cargo/Adapted Cycle space construction details please refer to Transport Initiatives LLP Documentation.

20. Due to the lack of a topographical survey, features such as footways, unpaved areas and kerblines within Downing Site missing from the base OS have been replicated from Site Visit Images provided by Transport Initiatives LLP.

21. Sheffield Cycle Stands to be in accordance with Broxap Sheffield stands or similar. Refer to the manufacturer for the relevant details.

22. For Cargo/Adapted Cycle space construction details please refer to Transport Initiatives LLP Documentation.

23. Due to the lack of a topographical survey, features such as footways, unpaved areas and kerblines within Downing Site missing from the base OS have been replicated from Site Visit Images provided by Transport Initiatives LLP.

24. Sheffield Cycle Stands to be in accordance with Broxap Sheffield stands or similar. Refer to the manufacturer for the relevant details.

25. For Cargo/Adapted Cycle space construction details please refer to Transport Initiatives LLP Documentation.

26. Due to the lack of a topographical survey, features such as footways, unpaved areas and kerblines within Downing Site missing from the base OS have been replicated from Site Visit Images provided by Transport Initiatives LLP.

27. Sheffield Cycle Stands to be in accordance with Broxap Sheffield stands or similar. Refer to the manufacturer for the relevant details.

28. For Cargo/Adapted Cycle space construction details please refer to Transport Initiatives LLP Documentation.
