There are approximately 800 employees at the University currently saving money, cutting congestion and making new friends by car sharing together. The Cambridge University car-share scheme enables organised car-sharing by connecting people travelling in the same direction so they can arrange to travel together and share the costs.

How can I get involved?

Joining the scheme is simple and completely FREE. All you have to do is register your journey details to www.camuni.liftshare.com. Once you've registered your journey, the database searches for possible matches. When you have found a suitable match, you can then contact the member(s) using our internal messaging system.

What are the benefits of car-sharing?

- Reduces the costs of travelling
- Cuts congestion and pollution which is a big problem in Cambridge
- Reduces parking problems
- Is a great way of networking, meeting new colleagues and making new friends

Do I need a car to car-share?

No, many people are happy to offer lifts in exchange for sharing the fuel costs. On the Cambridge University Liftshare network you can register your journey as "seeking a lift" if you don't have a car. If you cycle or walk to work, it's always good to find a car-share partner just in case one day you need a lift.

I have a busy life, do I have to car-share everyday?

No. Even if you share two or three times a week it is possible to make significant savings. We recommend that you come to an agreement that works for everyone in your car-share, which can change on a weekly/daily basis. Just keep your fellow car-sharers informed so they can make alternative arrangements if necessary.

Will my e-mail address be visible to other users?

No, your email address is kept hidden and messages are sent and received via the messaging centre on the Cambridge University Liftshare website.

If I register does that mean I have to car-share?

Not at all - there is no commitment. By registering your journey you are simply granting yourself access to the Cambridge University Liftshare network and can search for others who might be doing a similar journey. It's down to you to make contact with colleagues on the website and arrange a car-share.

What are the legal and insurance implications of car-sharing?

Association of British Insurers, which accounts for 95% of the motor insurance market in the UK, states that car-sharing won't affect the insurance of their members so long as a profit isn't made. Liftshare's savings calculator can assist in working out an appropriate sum of money to compensate your fellow sharer(s). Drivers with any concerns should check with their own insurance company as terms and conditions may vary between insurance providers over time.
